LARGE ATTENDANCE MARKED OPENING OF CRIMINAL COURT

Many Interesting Cases on the Docket Which Will Occupy Attention for Some Days—Several Monessen Cases Were Heard Yesterday

The November term of criminal court commenced at Greensburg yesterday with a record breaking crowd in attendance for the first day. The grand jury received detailed instructions from Judge Lucien W. Doty as to its manner of procedure, while the constable's returns were received by Judge Alexander D. McConnell. The following is the organization of the court attendandants and officers: Grand jury foreman, Lyman J. Loucke, of East Huntingdon township; grand jury attendant, Thomas O'Brien, of Youngwood; traverse jury attendants, Linton Hine, Cook Township; B. F. Cook, Mt. Pleasant township, and J. W. Frette, Adamsburg.

One of the interesting cases which were heard in Judge Doty's court was that in which Annie Brooks et al were charged with fornication, they having been arrested in the Wireton raid by the state police. The Brooks woman, Lizzie Bundy and Hattie Johnson were fined $5 and costs. The others, including the male prisoners, were released. This is the case in which Captain Borland, of the State police, made such an awful hollow because Squire Shuster did not hold more of the prisoners for court. But three of the few he did hold were fined $5 and costs. This fact clearly shows that Squire Shuster knew what he was doing and that the charges trumped up against him by Capt. Borland and the Greensburg papers were unfounded.

The case of John Stepech against George Guker, for the illegal sale of liquor was decided in the defendant's favor, and the prosecutor was committed to jail in default of costs.

John Kizenko charged with illegal liquor selling, was assessed the costs.

The case of Chief of Police Woolsey against Lizzie Bennett, charged with keeping a bawdy house, was began yesterday, but was continued until today. She was fined $10 and sent to jail for thirty days.

An indictment framed in pursuance to an information made by Constable Watts against York Wyatt, charging the defendant with being a common tramp, was very properly quashed upon motion by counsel for the defendant.

Upon the conviction for illegal liquor selling, William M. Jackson was sent to the work house for four months.

Dr. Imberg, who was charged by Chief of Police Woolsey, with practicing medicine without a license, went to Greensburg Saturday, and pleaded guilty. He will receive sentence Thursday, on which date this case was to have come up for trial. Many more interesting Monessen cases will come up during this week.

FINE SHOW AT THE "STAR"

The Altoians, who opened a weeks engagement at the Star theatre last night, were greeted by packed houses at each performance. Their comedy act entitled "His first lesson" is a highly amusing one and the audience was well pleased with their efforts.

Miss Annie Leslie Williams more than made a hit with the Star patrons. She has a truly wonderful voice and as the Tyrolean Warbler is in a class by herself.

The motion picture bill this week is an especially fine one, seven good features being presented. Miss Josephine Woods was unable to appear in the illustrated song last evening on account of illness but will appear as usual this evening. An entire change of program will be made Thursday evening.

Illegal Liquor Selling Must Cease.

In receiving the returns of the constables yesterday morning, Judge A. D. McConnell made a separate examination of the constables from Mt. Pleasant and New Florence, covering the situations in their respective bailiwicks, with reference to the illegal sale of liquor. Complaints have been received by the court from citizens of both Mt. Pleasant and New Florence to the effect that the liquor laws are being only and notoriously violated in both places and, with a view of correcting this situation, Judge McConnell called the constables from those places for examination yesterday.

The men denied that they were aware of illegal liquor selling. From the stand taken by the court illegal liquor selling must stop and extortion will be severely punished.

Stomach dozing will not cure catarrh. Breathe Hyomei and its germ killing air will cure the disease. Miller's Pharmacy sells it on guarantee.

COAL TRAFEIC WILL BOOM.

The mine workers along the Monongahela river are in high glee over the splendid promise of nearly steady work this winter, owing to the demand for coal in the south, which will be shipped by river. From all sections of the country, to which Pittsburg district coal is shipped, there comes a loud cry for more coal.

The river shippers are anxiously awaiting a rise that will be sufficient to allow them to send down the river several million bushels of coal. There are, at this time, more than the usual number of extra barges in the Pittsburg harbor awaiting cargoes. There have been swells sufficient to bring up empty barges and boats, but not sufficient to take down laden ones, nor is a real coalboat stage of water expected before the last week of this month. There is about 15,000,000 bushels of coal afloat at the pool and harbor anchorages and more is being added every day, so that when a swell does come the shipments will be heavy. The cry for more cars is being vigorously sounded from all points of the compass. Lake shippers complain because they find it difficult to tow their cargoes and dealers complain that they cannot get coal to meet the demands of local consumers. New cars have been added to the present rolling stock, and the car plants are being operated night and day to fill orders.

TWO FINE ONES ARE COMING

A rare treat is in store for theatre patrons next Tuesday evening, Nov. 20th, when "The Flaming Arrow," written and presented by Lincoln J. Carter, will be the attraction. The play is a guaranteed attraction, secured by Manager Shuster with no little difficulty and we do not hesitate to recommend it to theatre goers. Everywhere the play, which is presented by a fully capable cast, has appeared, it is spoken of in the highest terms by the press and public. In one act horses are used on the stage. The costumes and scenery are also said to be quite elaborate. A genuine Indian brass band is one of the features.

Another excellent attraction is announced for Thursday night, Nov. 22, when Hubert Labadie's "Faust" will be presented. From the reception accorded the production of this famous play here last season, the opera house will be packed.

WILL GIVE SONG RECITAL

Dana Entertaining Party Will Appear at First Presbyterian Next Tuesday Evening Under Auspices of Y. P. S. C. E.

Lovers of high class musical entertainment are offered a treat next Tuesday evening, when the Dana Entertaining party will appear at the First Presbyterian church under the auspices of the Y. P. S. C. E. The entertainment is in the form of a song recital by Alex. W Jones, bass soloist, assisted by Samuel F. L Snyder, reader, and E. W Curry, pianist. Everywhere the press speaks in glowing terms of the ability of these gentlemen.

Mr. Johns is the possessor of a rich bass voice. His selections are excellent and are rendered in an able manner. Mr. Curry who accompanies him with the piano, is gifted with unusual ability, and he performs his part with the ease and grace of a polished musician. Variety is given to the entertainment by the readings of Mr. Snyder who enjoys an enviable reputation. He is a reader of the highest rank. His delivery is pleasing, his humor convulsing.

Taken altogether the entertainment is one which tends to bring up the musical status of the community, and no one should miss this opportunity of enjoying an evening of refined entertainment.

Will Apply for Federal Building

The Homestead board of trade last night completed its organization. It was decided to appoint a special committee to go to Washington and apply for a $100,000 federal building, with the intention of including Munhall borough in the free mail delivery.

CHARGE ROAD SUPERVISORS WITH MAINTAINING NUISANCE

Washington County Postmaster Claims That Roads Are in Impassible Condition on Account of Them Neglecting Their Duties

An information has been made before Justice James A. Magill, of Washington, against James B. Wilson, Robert G. Jeffery and William J. Brown, road supervisors of Cosecreek township, charging them with maintaining a nuisance, neglecting to repair a certain piece of road to that township, after having been notified of its conditions several times.

The information was made by W. J. Parkhill, postmaster at Hanlin Station, Jefferson township. A rural carrier, R. M. Stevenson, on route No. 2 from that office, is compelled to go over the road in question and for some time has been compelled to go through mud holes that are very dangerous or cut his route and not deliver mail to families along a distance of about five miles.

No warrants has been issued for the arrest of the supervisors, but it is understood that they will be issued either today or tomorrow and be placed in the hands of the officers.

Burglars Laid Low.

The daring burglars which have created such a reign of terror here the past week, must have taken a vacation last night, as no attempts at burglary was reported to the police this morning. Last night the entire police force in company with several deputys and a number of armed citizens scoured the infested district until almost daylight but not the slightest trace of the marauders was found.

RUSSIA has heroically refrained from expressing any opinions on the quarrel between Japan and the United States.

THANKSGIVING is just about far enough from election day to give us all a chance to make up our minds that it might have been worse.

MR. Bryan declares that government ownership will be the paramount issue in 1908. There seems no disposition to trespass upon his pre-emption of that claim.

"DOES a woman own her own clothes?" is now being discussed. She probably does not care whether she does or not, as she is willing to give them up for new ones, anyway.

THE newspaper writer who declared that Bryan and La Follette are the two greatest knockers in the country, has dealt a cruel blow to Eugene Debs who thought he had the title cinched.

Lightning's Course.

"On the water," said a grizzled old bayman who stood smoking his corncob and surveying the bay the other day, "when you see a thunder storm rising you want to keep an eye on the lightning. If you see it in the distance striking down farther and farther to the right from where you first saw it or farther and farther to the left, this indicates that the storm is working to the right or to the left, and it may pass around you. But if you see it all the time coming down in the same place and at the same time getting brighter and brighter, why, that indicates that it's coming straight toward you, and this is the time, son, when you want to make for home or get in your sail and make everything snug till the storm passes over."—Exchange.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation

The bark of a certain tree in California—"cascara Sagrada"—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation A toothsome Candy Tablet, called Lax-ets is now made at the Dr. Shoop Laboratories, from this ingenious and most effective prescription Its effect on Constipation, Biliousness Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box

No Excuses Accepted.

French officials are said to be particularly strict in their discipline of chauffeurs. A lately returned traveler tells several more or less apocryphal stories to illustrate the state of affairs. An American lost his footing, slipped down an embankment and fell into a small but flow pond. As he scrambled, dripping up the embankment to the footpath he was confronted by an arm of the law.

"Your name? Your address?" demanded this uncompromising person, notebook in hand.

"But I fell," began the astonished American. "I only"—

The man waved his arm. "It is forbidden to bathe in this lake," he said firmly. "I am not here to listen to extenuating circumstances."

A Quotation.

A correspondent wrote to a newspaper to ask the author of this couplet:

How much the fool who has been sent to Rome
Excels the fool who has been kept at home!

He had barely written when he answered his own query, having found the source of the lines and how he had misquoted them. They are from Cowper's "Progress of Error" and read:

How much a dunce that hath been sent to roam
Excels a dunce that hath been kept at home!

We are not sure but that, as is frequently the case with misquotations, the popular version is better than the poet's.—New York Tribune.

Brains of Great Men.

Brains of great men vary very much It is found that men of encyclopedic mind have large and heavy brains—Gladstone had to wear a very big hat—with an enormous bed of gray matter and numerous convolutions. On the other hand, men whose genius is concentrated upon one line of thought are of small brain and, consequently have small heads Newton, Byron and Cromwell were in this class.—Kansas City Journal.

Latchkey as a Source of Trouble.

Ever since some mechanically inclined person, with an almost diabolical instinct for making mischief, invented a form of spring lock which can be opened on the inside by a knob and on the outside only by a key there has been trouble The latchkey from the first has been a domestic storm center. It has divided family circles and even broken up homes.—London Telegraph

The Test.

There is a legend [illegible] an English writer, to the effect that after Lord Stanley came into the house of peers a lady somewhat indiscreetly asked Lord Brougham at a dinner party who was the best speaker in the house of lords and that Lord Brougham promptly and emphatically answered "Lord Stanley, madam, is the second best."

RUSSIA has heroically refrained from expressing any opinions on the quarrel between Japan and the United States.

THANKSGIVING is just about far enough from election day to give us all a chance to make up our minds that it might have been worse.

MR. Bryan declares that government ownership will be the paramount issue in 1908. There seems no disposition to tresspass upon his pre-emption of that claim.

"DOES a woman own her own clothes?" is now being discussed. She probably does not care whether she does or not, as she is willing to give them up for new ones, anyway.

THE newspaper writer who declared that Bryan and La Follette are the two greatest knockers in the country, has dealt a cruel blow to Eugene Debs who thought he had the title cinched.

AFTER getting a load of his namesake on board, Albert "Booze" of Washington, D.C., struck his father, Peter Booze, and the Judge in favor of pushing a good thing along, sent him to jail for sixty days.

Lightning's Course.

"On the water," said a grizzled old bayman who stood smoking his corncob and surveying the bay the other day, "when you see a thunder storm rising you want to keep an eye on the lightning. If you see it in the distance striking down farther and farther to the right from where you first saw it or farther and farther to the left, this indicates that the storm is working to the right or to the left, and it may pass around you. But if you see it all the time coming down in the same place and at the same time getting brighter and brighter, why, that indicates that it's coming straight toward you, and this is the time, son, when you want to make for home or get in your sail and make everything snug till the storm passes over."—Exchange.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S S Bell, of Ravenswood, W Va., says—"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—"Cascara Sagrada"—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr Shoop Laboratories, from this ingenious and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

Couldn't Lift Ten Pounds.

Doan's Kidney Pills Brought Strength and Health to the Sufferer, Making Him Feel Twenty-Five Years Younger.

Sick kidneys cause a weak, lame or aching back, and a weak back makes a weak man. Can't be well and strong until the kidneys are cured. Treat them with Doan's Kidney Pills. Here's the testimony of one man cured.

J. B. CORTON.

J. B. Corton, farmer and lumberman, of Deppe, N. C., says "I suffered for years with my back. It was so bad that I could not walk any distance nor even ride in easy buggy. I do not believe I could have raised ten pounds of weight from the ground [illegible] walk a long distance and feel just as strong as I did twenty five years ago. I think so much of Doan's Kidney Pills that I have given a supply of the remedy to some of my neighbors and they have also found good results. If you can sift anything from this rambling note that will be of any service to you, or to any one suffering from kidney trouble, you are at liberty to do so."

A FREE TRIAL of this great kidney medicine which cured Mr. Corton will be mailed on application to any part of the United States. Address Foster Milburn Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

No Excuses Accepted.

French officials are said to be particularly strict in their discipline of chauffeurs. A lately returned traveler tells several more or less apocryphal stories to illustrate the state of affairs. An American lost his footing, slipped down an embankment and fell into a small but deep pond. As he scrambled, dripping, up the embankment to the footpath he was confronted by an arm of the law.

"Your name? Your address?" demanded this uncompromising person, notebook in hand.

"But I fell," began the astonished American. "I only"—

The man waved his arm. "It is forbidden to bathe in the lake," he said brusquely. "I am not here to listen to extenuating circumstances."

A Quotation.

A correspondent wrote to a newspaper to ask the author of this couplet:

How much the fool who has been sent to Rome
Excels the fool who has been kept at home!

He had barely written when he answered his own query, having found the source of the lines and how he had misquoted them. They are from Cowper's "Progress of Error" and read:

How much a dunce that hath been sent to roam
Excels a dunce that hath been kept at home!

We are not sure but that, as is frequently the case with misquotations, the popular version is better than the poet's.—New York Tribune.

Brains of Great Men.

Brains of great men vary very much. It is found that men of encyclopedic mind have large and heavy brains—Gladstone had to wear a very big hat—with an enormous bed of gray matter and numerous convolutions. On the other hand, men whose genius is concentrated upon one line of thought are of small brain and, consequently have small heads. Newton, Byron and Cromwell were in this class.—Kansas City Journal.

Latchkey as a Source of Trouble.

Ever since some mechanically inclined person, with an almost diabolical instinct for making mischief, invented a form of spring lock which can be opened on the inside by a knob and on the outside only by a key there has been trouble. The latchkey from the first has been a domestic storm center. It has divided families, couples and even broken up homes.—London Telegraph.

The Best.

There is a legend, says an English writer, to the effect that after Lord Stanley came into the house of peers a lady somewhat indiscreetly asked Lord Brougham at a dinner party who was the best speaker in the house of lords and that Lord Brougham promptly and emphatically answered, "Lord Stanley, madam is the second best."

A perfect Bowel Laxative for constipation, sallow complexion, headache dizziness, sour stomach, coated tongue biliousness. Lax-ets act promptly, without pain or griping. Pleasant to take—Lax-ets—only 5 cents. Sold by all druggists.

Accidents will happen, but the best-regulated families keep Dr. Thomas's Eclectric Oil for such emergencies. It subdues the pain and heals the hurts.

A cold is much more easily cured when the bowels are open. Kennedy's Laxative Honey and Tar opens the bowels and drives the cold out of the system in young or old. Sold by R. W. Beck.

Think of Dr Shoop's Catarrh Cure if your nose and throat discharges—if your breath is foul or feverish. This snow white soothing balm contains Oil of Eucalptus, Thymol, Menthol, etc., incorporated into an imported, creamlike, velvety petrolatum. It soothes, heals, purifies, controls. Call at our store for free trial box. Sold and recommended by all dealers.

For years I starved, then I bought a 50 cent bottle of Kodol Dyspepsia Cure and what that bottle benefitted me all the gold in Georgia could not buy. I kept on taking it and in two months I went back to my work as machinist. In three months I was as well and hearty as I ever was. I still use a little occasionally as I find it a fine blood purifier and a good tonic. May you live long and prosper. —C. N. Cornell, Reding, Ga., Aug 27, 1906. Kodol is sold here by R W. Beck.

Last night's double header between the Capitols and McGinleys proved the biggest drawing card of the season and not without cause. The matches were by far the most interesting yet played. Although the Capitols, by splendid rolling, won both matches, they were made to go the pace by the McGinleys who were also in good form.

The games were hot and exciting and furnished lots of amusement to the large crowd of bowling lovers which crowded the Capitol alleys. Lebowitz rolled the high score in the first match and Underwood secured the most pins in the second. In the first match the Capitols especially distinguished themselves, rolling the high team average of 846. Another warm contest is promised for Wednesday evening when the Keystones and McGinleys meet. Last night's scores:

AT THE THEATRE

Manager Shuster has booked Stetson's "Uncle Tom's Cabin" for the Monessen Opera House and this popular company will open there on Saturday Nov., 17, for one night only. This should be a welcome announcement to patrons of that popular playhouse as well as to the general public, that loves this charming old drama. It is a well-known fact that the Stetson Company is one of the best that has ever presented this great play, and this season will but add to its popularity with young and old, for it is even better than it has been, if such a thing could be possible to so good a company. New features have been added and old ones given a better interpretation. The musical part of the program has been greatly increased. It is said to have the heaviest scenic equipment of any company travelling.

The Value of Time.

In an air lock it is a common practice to note that water sticking—that is, coming through the lock and as the pressure is being reduced by opening the discharge valve—forms bubbles, becoming thick as the water evolves and pressure are lowered. The writer at one time was attacked by the bends, or the caisson disease, after coming out of the old Hudson river tunnel. He was promptly taken to the hospital, which was nothing but a horizontal tank about the size of a common locomotive boiler. The pressure, amounting at that time to seven thirty pounds was admitted, and it served instantly to relieve pain and to put me in normal conditions. He was told to open the discharge valve and let the pressure out so that he might open the door. As he did this he noticed that the temperature was gradually lowered, and at a certain point, known as the dew point, he was enveloped in fog. The pain returned about this time, so that he shut off the discharge valve and opened the cock, admitting compressed air. The fog immediately disappeared, the temperature was slightly increased and the pain stopped. This condition was repeated several times, so that here is a means by which artificial fog may be produced at will. The same physical laws apply in the production of fog as in the condensation of moisture on the exterior of an ice pitcher or on a window pane in winter time.—Compressed Air Magazine.

Sweet Simplicity.

In the old days there was a professor of psychology at Dartmouth who was so abstruse that it is doubtful if at times he fully understood himself. One day he was profounder than usual. He lectured for nearly an hour on topics away over in the back of the book. The class was dazed. It was far above their heads, and they did not understand even the edges of it. When he had finished, the old man took out his watch, and said genially: "Now, there are ten minutes of the hour remaining. If any student desires to ask me a question, I shall be glad to answer it to the best of my ability." The class sat in a stupor. The professor waited for a time and then said: "Is there no one who has a question to ask? There are remaining several minutes that could be profitably employed." Finally one student put up a reluctant hand. "Ah," said the professor, "you have a question. What is it?" "What time is it?" stammered the student.—Saturday Evening Post.

Nose Jewelry.

I suppose that in five years' time anybody who doesn't wear spectacles will be liable to arrest and imprisonment with or without the option of a fine. I cannot believe that all people who wear spectacles suffer from defective vision. I think that the great bulk of the people who overdress their faces with pieces of gold mounted glass do so out of vanity. They consider that it improves their appearance and tends to make them look more intellectual. You will notice that no pretty woman or handsome man ever goes about with a gold nose improver. It would, indeed, be an extraordinary thing if our oculists were to tell us that beautiful people never had defective eyesight.—Pall Mall Gazette.

Natural Varnishes.

Fluid resins or oils from several different trees are extensively used in the Philippines as varnishes. One of these, called oil of sigta, is a pale yellow liquid unless fresh, but it becomes dark and viscous after exposed with the air. Spread in a thin layer it dries slowly and forms a hard varnish. It is also capable of being burned in a lamp. Another natural varnish is balao, also called oil of apitong. It is white when fresh, but darkens after exposure and makes a very tough varnish. Oil of panso is a third variety, inferior to the others in its drying properties. Chemical analysis has shown that all these wood oils consist entirely of hydrocarbons known as sesquiterpenes.

Turtles as Gardeners.

The peddlers with carts who supply the occupants of villas in the environs of Paris with cherries and other small fruits frequently carry for sale a few small turtles. They are purchased by the inhabitants of the villas to be placed in their gardens, where they are believed to serve as very effective aids to the gardener by preventing the ravages of the insects and other small creatures which are accustomed to do much damage to the flower beds and borders.—Youth's Companion.

Carlyle on Disraeli.

William Black, the novelist, in his reminiscences of Carlyle, reports him as saying: "There's that man Disraeli. They tell me he is a good speaker. Perhaps I do not know what a good speaker is. But I read a speech of his that he delivered in Glasgow a year or two ago, and it appeared to me the greatest jargon of nonsense that ever got into any poor creature's head."

A Freak of Nature.

A tree that is a freak of nature is the Asiatic star tree. It grows sixty to eighty feet tall, and for a height of about forty feet the trunk is wholly bare. From that point there spring a number of tangled limbs, which shoot out clusters of long pointed leaves, and these, grouped together, emit at night a phosphorescent light.

Cautious.

Jacks—Townley is an exceedingly cautious man don't you think? Johns—Cautious! Why, he wouldn't pay a compliment without getting a receipt for it.

The song that we hear with our ears is only the song that is sung in our hearts.—Ouida.

Slizon is Located.

Chief of Police Logan of Monongahela received word yesterday of the whereabouts of James Slizon a track walker employed by the Pennsylvania Railroad company, who mysteriously disappeared sometime ago with $60 of the company's money. Slizon according to the report, is in Creighton having a good time on the money he confiscated and says he will return home as soon as it is all spent.

[illegible] offered as a [illegible] contribution is [illegible] which is still open for competition and will be awarded [illegible] beginning on Jan. 1, 1925, to [illegible] the best history of Alexander I of Russia. Anatoloff, founder of the military colonies of Novgorod, left a fortune of 50,000 gold rubles to provide for this unique prize. The prize giving day is the centenary of the Czar Alexander's death, by which time the money will, it is estimated, have increased to 2,000,000 rubles. One-fourth of it will be used to defray the cost of publishing the work which wins the prize.

At Which Age?

An amusing discussion recently took place between an artist and an author as to which period of her life a woman was the most fascinating. According to the artist a woman should not be painted between the ages of twenty-five and forty, as she was in the greatest transition period of her life. The author, on the other hand declares that she is at the height of her fascination and beauty between the ages of thirty and forty. The question is still unsettled.—Boston Evening Transcript.

Sea Snakes.

Sea snakes are very plentiful in the south Pacific. They are usually all striped, stocky individuals of the species Hydrophis cyanocinctus. When swimming close to the surface they exactly resemble an ordinary snake, except that the head is always below water. At night they come ashore and lie among the rocks. The head on fish and, although their small double fangs appear dreadful, they are reported to be very venomous.

Clean Foreign Men.

There are plenty of bright young men in the country whose hands have not been soiled by the dirt of latter day politics. It will be a good thing for the state and for the nation to have them come forward and take an active part in public affairs. It will be a good thing for any party that recognizes them and gives them proper encouragement.—Knoxville Journal and Tribune.

End of the Honeymoon.

"Finished your honeymoon yet?"

"I don't know. I have never been able to determine the exact meaning of the word honeymoon."

"Well, then, has your wife commenced to do the cooking yet?"—Houston Post.
